## VIC DONAHEY IS LIMA VISITOR

Democratic Candidate For Governor Attends Fair

## IS GREETED BY THOUSANDS

Assurance of Support Given by Numerous Republicans

Unannounced and unexpected, but nevertheless very welcome, Hon. A. V. Donahey, Auditor of State and the Democratic nominee for Governor of Ohio, "dropped into" Lima Thursday afternoon, alighting from an Ohio Electric interurban car and working his way thru the vast crowd at the fair ground, where for several hours he met and greeted the many who pressed forward to shake hands with the man who, for seven years, has been at the head of the fiscal department of Ohio and whose service therein has been of a kind and character that has made the Buckeye State the envy of all states in the union, for efficiency in the conduct of public office.

### DONAHEY'S RECORD

Vic Donahey doesn't belong to that class of men who took upon public office as a private snap, but rather that public office is a public trust. Donahey's record is a splendid one. "Fifty-five feet of Donahey's record" is shown on a card, a likeness of the Auditor with 55 feet of typewritten pages, collected from May, 1914, to June 30, 1920, rejected extravagance, expense accounts and illegal claims and eliminated errors from vouchers presented for payment from the state treasury, which aggregated the sum of \$478,785.67 in a list of over 1,000 items, saved to the state of Ohio, nearly half a million dollars.

Selected Governor of Ohio, 1921, he is not alone. Donahey told a number of Republicans who assured him of their support in the election. Upwards of 2,000 people greeted the gubernatorial candidate as he mingled with the crowds at the fair during the afternoon. Donahey remained in Lima over night and left Friday morning for Tiffin, expecting to return to Columbus from that city.

The candidate was well pleased with the reception given him in Lima and he confidently expects good support in this county in the November election. He made an excellent impression here. Republicans as well as Democrats are rallying to his support.

**THEIR AFTER DAVIS**  
Donahey and his strategists are doling down deep into the campaign expense account of Harry L. Davis, his Republican opponent, and find that the total statements on file in the office of the secretary of state are close to \$100,000. The total has grown nearly \$2,000 since the first investigation, as more reports have come straggling in.

The reports of only a few subsidiary Davis organizations are on file, whereas it is said, he had organized in many counties of the state. A call may be made on the state's legal officers to bring in these reports or to proceed against the Davis managers for failure to do so. The Kimball corrupt practices act is being investigated to determine whether it provides for forfeiture of nomination on failure to make complete reports.

**WAR ON WILLIS**  
W. A. Julian, Democratic candidate for United States Senator, is also making war on Frank B. Willis, his Republican opponent. It is claimed that nearly \$18,000 was spent to land the senatorial nomination for former Governor Willis. Slush fund charges were made against Walter F. Brown by Judge R. W. Wainwright in the pre-trial canvass, but no charge was made against Willis then. The recapitulation put out by the Democratic candidate shows that Willis had a larger war chest than was ascribed to Brown.

Mr. Julian calls upon Willis to state what he will do, if elected, a member of the United States Senate, in the case of Truman H. Newberry of Michigan, who Julian has promised to vote to expel from the senate if he (Julian) is elected.

## WOMAN BELIEVED LURED TO DEATH

**New York Police Probe Murder of Mrs. Schultz**  
NEW YORK.—(By United Press)—Police Friday were systematically questioning all friends and acquaintances of Mrs. Blanche Schultz, found murdered, in an effort to get a clue which will lead to apprehension of her slayer.

Frank Schultz, her husband, who identified the body, was interrogated by the police for hours. It was understood he furnished names of all persons who knew his wife.

The dead woman was one of the most beautiful in police annals. Detectives believe the girl was lured to a lonely spot in the woods not far from a big amusement park on the palisades, and that there she was beaten into unconsciousness and her throat cut.

## Pastor Plans Sign To Outshine Cabaret Brilliance

NEW YORK.—Broadway electric signs that emblazon the merits of chewing gum, corsets, plays, cabarets and the like are soon to have an ecclesiastical rival. The Rev. Dr. John G. Benson, pastor of a church here, announced plans for the erection of a great electric sign that will vie with all others along the "Gay White Way."

It is to be the largest and most brilliant electric church sign in the world and will display the announcement: "Union Church and Social Center—Always Open."

Union Church and Social Center—Always Open. Above this will be a brilliant cross and red, white and blue lamps will outline the American flag underneath.

## STRONG GUARD AT BRIXTON PRISON

Cordons of Troops Are Thrown About MacSwiney Cell

## SOLDIERS CHARGE ON MOB

**Hunger Strike Breaking Official Opposition, Belief**  
LONDON.—(By United Press)—Cordons of troops were thrown about Brixton prison Friday.

The military took this action after discovering that a number of the persons demonstrating for release of Lord Mayor MacSwiney, or Cork, were both armed with revolvers and bombs.

Soldiers and police promptly charged and broke up every group that gathered in the vicinity of the prison. Several additional arrests were made.

## OPPOSITION BREAK SEEN

LONDON.—(By United Press)—Effect of the hunger strike of Lord Mayor MacSwiney, of Cork, upon the political situation in both Ireland and England was believed Friday to be slowing backing down of official opposition to his release.

Not only has the approaching death of the lord mayor—who has been on a hunger strike in Brixton for more than two weeks—created a serious crisis in Ireland, but the radical labor movement in England is growing more bitter against the government.

The MacSwiney case, coupled with the threatened coal strike led to reports Friday that Premier Lloyd George had decided to curtail the strike in Limerick and return to London at once.

In certain quarters the rumor was revived that the government would release MacSwiney on the pretext of his having contracted tuberculosis or some other disease, thus allowing the release of the lord mayor.

However, I feel it incumbent upon me to state that I consider the conduct of the lord mayor of Cork—my brother—heroic, both from a moral and a patriotic standpoint.

"I hope and pray that it may lead to the complete success of the cause that inspires it."

## WOMEN QUICK TO ACT AS JURORS

12 Offer No Excuse; Return Verdict in Damage Case

SANDUSKY.—(By United Press)—Because women responded 100 per cent for jury duty, without asking to be excused when summoned for the first jury of women here, Common Pleas Judge Roy H. Williams Friday declared he would likely call them frequently in the future when a special venire is needed.

"About 75 per cent of the men summoned for jury duty ask to be excused, but not one woman presented an excuse, even though they were asked on short notice to appear at one o'clock," said Judge Williams.

Also related over the success with the first woman jury, Judge Williams says he will delay ordering the jury commission to place women's names in the jury wheel.

The jury of women Thursday returned a verdict of \$1,500 damages for Pennock Jefferies, who was injured when his automobile was struck by a car at a crossing in the Pennsylvania railroad yards here last September. The case was not contested.

## PUT UP TO THE PROBERS

Talks on Hays' Statement on Arrival in New York

NEW YORK.—(By Associated Press)—Governor Cox, Democratic presidential nominee, indicated here Friday that he would make further "exposés" of Republican campaign funds within a week.

Pausing here for scarcely more than an hour, on his way from Pittsburgh to New Haven, Governor Cox conferred with party leaders on the effects of his speech in Pittsburgh Thursday, at which he presented information bearing on his charge that Republicans were raising a \$15,000,000 fund to "buy" the presidency. Then, just before his train pulled out, he received newspaper men.

**"DUMMY NAMES"**  
Asked if he would press his charges further, Mr. Cox replied: "Yes. You will have new leads in a week, I think."

Referring to an announcement from With H. Hays, chairman of the Republican national committee, that individual campaign contributions would be restricted to \$1,000, Mr. Cox said:

"Mr. Hays knows that such a statement is not true. The method used by the Republicans are to get some big fellow to give \$20,000 of \$25,000 after which 19 or 21 dummy names are written down as contributors on the party's books. No one needs to be asked by the newspapers the sources of the funds which have accused the Republicans of raising."

**PUT UP TO PROBERS**  
Mr. Cox said that if the senate committee investigating campaign funds really wished him to appear before it in Chicago, he would do so.

"The senate committee now has the necessary leads. If it wishes to investigate, it will call in Republican state leaders and learn from them who the county and city leaders are and that get all the details. I have every confidence that the senate committee will go to the bottom of my charges."

"A year ago I said that the Republicans were going back to the methods of Mark Ham on his western trips. They would be defeated with their own money. This is still my belief."

## NEW YORK RECEPTION

When Governor Cox was asked about reports concerning Democratic national finance of a year ago, he said:

"I came on board the Democratic ship July 7. I know nothing about what happened before that time."

"One thing I can tell you, tho, is that I found a deficit but no money."

It was not a wholly political repudiation that awaited Governor Cox here at the station, too, were James J. Cox, Jr., now a student at a military academy, and Dan Mahoney, son-in-law of Governor Cox.

James, Jr., sprang a sensation of his own when he announced to newspaper men that he was planning to accompany his father on his western campaign trip. Mr. Mahoney, however, broke in on the youngster to announce that his father had not been informed of his plans and that the announcement of James Junior "was considerably an error as he was going back to school September 15."

## MASK IS OFF, SAYS WHITE

Replying to Mr. Hays' statement, George White, chairman of the Democratic national committee said: "The mask is off. The plan is obvious. Governor Cox has rendered a distinct service to the country."

"It is up to the senate investigating committee to give the public additional information and figures which Hays and Treasurer (Pharm) of the Republican national committee have. Information thus given before a Republican investigative committee will only serve to emphasize the fact which Governor Cox has already called to public notice."

## IRISH TOWN BURNS

Sinn Fein Sympathizers Accused of Reprisal

BELFAST.—(By United Press)—The entire business section of Dundalk has been destroyed by fire, alleged to have been set by Sinn Fein sympathizers in reprisal for the burning of Catholic property in Belfast and Lifford by Unionists.

Thirteen persons sleeping in rooms over a dry goods store were trapped and three of them were burned to death.

Dundalk, a city of 15,000, is on Dundalk Bay, midway between Belfast and Dublin.

Cox "Dreams in Millions," Says Republican Chairman

## "INSULT TO GOOD CITIZENS"

Will Have Chance to Prove Allegations, He Asserts

NEW YORK.—(By Associated Press)—Will H. Hays, chairman of the Republican national committee, replying to the speech of Governor Cox in Pittsburgh Thursday night in which the Democratic presidential nominee sought to prove that Republicans were conspiring to buy the presidency, declared that Mr. Cox had said "intimate knowledge of the wasting of millions in aircraft production" during the war, that he "dreamed in millions."

After studying Mr. Cox's speech, Mr. Hays issued the following statement at Republican headquarters:

"Of course, Candidate Cox failed to prove, as he has failed to prove, and will fail to prove, his charges. This is simply because the charges are false."

**BULLETIN QUOTATIONS**  
"He says millions have been put into the Republican national committee by sinister influences to corrupt the electorate. He first is reported to have said a hundred million. Then Secretary Roosevelt said thirty million. Then Candidate Cox says eight million."

"He attempts to prove this by quoting from the official bulletin of the ways and means committee of the Republican national committee, a pamphlet published every few days and sent broadcast over the country to party members and to newspapers, all to mislead interest among the workers, and from an alleged quota sheet which he claims indicates the amounts to be raised in certain cities, which he does not even charge was adopted by his organization."

**DREAM IN MILLIONS**  
Candidate Cox, himself a millionaire, has had such intimate knowledge of the wasting of millions in aircraft production in his state 2, Secretary Roosevelt has had such intimate knowledge of the wasting of billions in the administration of which he has been an important part, that these men dream in millions."

"They will have an opportunity in Chicago to prove this insult to the treasury of good citizens all over the country. I am proud to be a Republican party."

"Incidentally they will have a chance next week to indicate the source of their own money, both of their national committee and other agencies outside of their national committee. I am proud to be a Republican party."

**NOTHING TO SAY, SAYS HARDING**  
MARION.—(By Associated Press)—Senator Harding declined to comment Friday on the detailed charges of Republican campaign fund allegations made by Governor Cox in a speech at Pittsburgh.

"I have read it hastily and haven't a word to say," said the Republican nominee. "I do not expect to have anything to say."

## LEROY HELD FOR EXTRADITION

U. S. Embassy Negotiates With Argentine For Alleged Slayer

BUENOS AIRES.—(By United Press)—The Argentine embassy here already has opened negotiations with the Argentine government regarding extradition of Morris Fox, believed to be Eugene Leroy, who is a prisoner on the British steamer Dryden, bound for this port.

Fox was arrested aboard the Dryden, which he had shipped from New York, as a common sailor, on the belief of American officials that he is the Eugene Leroy sought in connection with the murder of a woman believed to be his wife.

The woman's death furnished the trunk murder mystery, which involved New York and Detroit several weeks ago.

Owing to the fact the United States has no extradition treaty with Brazil, Fox was not taken ashore when the steamer docked in Rio Janeiro, and it was announced he will be brought to this city. The complicated nature of the case has made the outcome obscure and American officials here were unable to forecast whether Fox will be handed over to the Argentine authorities, awaiting outcome of the extradition proceedings, or will be detained by the American diplomatic officials.

**INJURED IN AUTO CRASH**  
TOLEDO.—Eugene Corbin, Franzell Willis and Lyle Hall of Ballou, Ohio, Russell Corbin of Detroit and William Sowers of Cleveland were injured near here when their automobile went into a ditch. Sowers was knocked unconscious. All will recover.

**DESIRES TO BE NOTARY**

## Newly Enfranchised Women Fleece By 'Collector'

PITTSBURGH, Pa. — Numerous newly enfranchised Allegheny women have been defrauded by a bogus tax collector, who went into action shortly after Secretary (Cox) signed the proclamation declaring woman suffrage law, according to announcement made Friday by H. H. Rowand, district attorney.

The fake collector, Mr. Rowand said, operated in the Allegheny district Thursday, and authorities in all sections of the country were on the lookout for him Friday. The bogus agent, victims reported, appeared at their homes, informed them that they must pay him a poll tax if they wanted to vote in November, collected the money, handed out a receipt, and then disappeared.

## 40 MILLION LIVES LOST IN WAR

Figures Given to Show Sacrifices of European Nations

9,819,000 DIE IN ACTION

Drop in Birth Rate Estimated 20,200,000

WASHINGTON.—(By Associated Press)—Due to war influences, ten European nations engaged in the world war show a potential loss in population of 35,320,000 persons since 1914, according to a statistical research conducted by the Soviet for Studying the Social Consequences of the War, of Copenhagen, made public today by the American Red Cross.

At the end of 1917, the societies reports, these nations had a population of 400,850,000 and under normal conditions this population should have increased by the middle of 1919, to 424,210,000. However, it had fallen by that time to 388,630,000, which led to the conclusion by Danish statistical agency that the loss of actual and potential human life in these nations approximates forty millions.

Causes of the abnormal falling off in population were attributed to the societies report to the following: Killed in War, 9,819,000; deaths due to augmentation of mortality economic blockade, war epidemics, 5,281,000; fall of birth rate due to mobilization of fifty-six million men between 20 and 45 years of age, 20,200,000.

**PLOT TO MURDER LAID BARE**  
Boy Bandits Admit Plan to Raid White Sox Office

CHICAGO.—(By Associated Press)—Confession of a plot to shoot Charles A. Comiskey, baseball manager, and the office where and police guard at the White Sox baseball park box office September 16, was made in police Friday by three boy bandits, who were arrested Thursday in an attempted robbery of a \$10,000 payroll of Wilson and Company, stock yard packers.

According to the police, the three said that they had intended to steal the payroll of the White Sox. They figured "Babe" Ruth would draw a record-breaking attendance. They said they also planned to "shoot the witnesses," knowing that Comiskey was not permitted by his physicians to watch the game and that he was in the box office every afternoon.

They told the police Thursday they planned to kill the bank messengers and escape with the \$10,000 payroll.

James Ryan, one of the trio, was identified at the state attorney's office as a member of the gang that shot and killed Detective Sergeant Daniel McGurk recently, while the detective was detaining a cigar company's plant at a robber's raid.

**TRAINMEN KILLED**  
Result of Penna. R. R. Wreck Near Alliance

CANTON.—(By Associated Press)—Two trainmen were killed and three others were seriously injured as a result of a rear end railroad collision which occurred late Thursday night in the west yards of the Pennsylvania line near Alliance.

The dead men were W. W. Lehman, 55, conductor, Allegheny, Pa., and R. L. Cartwright, 27, Penn. W. V. Hagman. Both of the bodies were brought to Canton.

Conductor Lehman and Flagman Cartwright were said to have been standing on the rear end of the train which was standing on the main track in the yards awaiting orders when it was run into by the engine of the other train which was bound for Conway.

## LONDON TOLD TO FORCE PEACE

Government Ordered to Compel Pledge Acceptance of Terms

## RED ARMIES CUT IN HALF

40,000 Russians Killed and 80,000 Captured

LONDON.—(By United Press)—British labor is demanding that the government take immediate steps to bring about peace between Russia and Poland.

The laborites take the attitude that Great Britain, having been chiefly instrumental in forcing the Bolsheviks to modify their armistice terms, should not now permit all possible pressure upon the Poles to compel acceptance of the proposals which were previously approved by Premier Lloyd George.

In a message sent jointly to Lloyd George, Arthur Henderson, leader of the House of Commons, and Lord Balfour, British ambassador in Moscow, the executive council of the British labor party declared that body had helped to induce the Poles to withdraw the objectionable terms thus removing the obstacles to peace, and urged that the British and Russians should simultaneously publish the full terms upon which peace can be obtained at once.

**RUSSIAN LOSSES IN WAR**  
The foreign ministry announced Friday that France had compelled Poland to obtain the best strategic military position possible until peace is signed, regardless of her ethnographical frontier, because the military situation will influence the peace terms. France has advised Poland, however, to withdraw her armies from the Polish frontier on the signing of peace, the foreign office added.

Eighty thousand Russian Soviet soldiers have been captured in Poland, 40,000 killed and 80,000 wounded in 1919, according to the latest report received from the French mission in Poland.

**RED CHIEF OF STAFF**  
WARSAW.—(By Associated Press)—General Tuchatschewski, known as the "Soviet Napoleon," has been relieved of his post, as commander-in-chief of the Bolshevik army on the Polish front because of his failure to take Warsaw, according to information given to the press here. Leon Trotsky, Bolshevik minister of war and marine has personally taken command of the army. It is reported by Bolshevik officers who have been taken prisoners.

General Tuchatschewski had had a remarkable career in the Russian army. He is of noble birth and at the outbreak of the world war was captured by the Germans. Later he escaped and resumed his place in the army, rising to the rank of lieutenant. When the Soviet government was established, he was promoted, and rose to high command, being credited with the defeat of Admiral Kolchak, in Siberia, and General Denikin, in southern Russia. He is only 28 years old.

**FOUR FOR FOOLS**  
LONDON.—(By Associated Press)—The Poles and Russians are fighting a bitter war in the Lublin region, the strongly fortified town on the Bug river 120 miles east of Warsaw, the Russian Soviet official statement of Thursday, received here by wireless today, in the Lublin region, fighting is continuing with the same results. The statement adds: "The communication road."

"We are conducting a fierce fight for possession of the town of Lublin, in the Lublin region, fierce fighting continues with alternating success."

"On the Crimean sector in the Kherson region, we have again driven back the enemy. In the Onyok region exceedingly fierce fighting is proceeding with considerable forces of enemy cavalry."

**BIGAMY CHARGED**  
Salesman Held When Alleged Wife No. 3 Appears

COLUMBUS.—(By United Press)—Harry A. Ross, 35, Johnstown, Pa., oil salesman, was arrested at the Chillicothe Hotel early Friday on an alleged bigamy charge.

The complaint was made by Mrs. Harry A. Ross, Lincoln, Neb., who says she is Mrs. Ross Number 2, and that her first two wives were divorced.

The wife Ross had with him when arrested was formerly Miss Elmer North, Nightingale, 23, of Johnstown, whom Ross is alleged to have married August 13, last. Police say they were honeymooning by automobile and were planning to leave Columbus for western points when arrested.

Nearly half a million dollars.

Victor Donahey, Governor of Ohio, I am going right along keeping the faith with the people," Donahey told a number of Republicans who assured him of their support in the election. Upwards of 2,000 people greeted the gubernatorial candidate as he mingled with the crowds at the fair during the afternoon. Donahey remained in Lima over night and left Friday morning for Tiffin, expecting to return to Columbus Friday night.

## THEY'RE AFTER DAVIS

Donahey and his strategists are delving down deep into the campaign expense account of Harry L. Davis, his Republican opponent, and find that the total statements on file in the office of the secretary of state are close to \$42,000. The total has grown nearly \$7,000 since the first investigation, as more reports have come straggling in.

## WAR ON WILLIS

W. A. Julian, Democratic candidate for United States Senator, is also making war on Frank B. Willis, his Republican opponent. It is claimed that nearly \$18,000 was spent to land the senatorial nomination for former Governor Willis. Slush fund charges were made against Walter T. Brown by Judge R. M. ## PUT UP TO THE PROBERS

Talks on Hays' Statement on Arrival in New York

NEW YORK. — (By Associated Press) — Governor Cox, Democratic presidential nominee, indicated here Friday that he would make further "exposés" of Republican campaign funds within a week.

Pausing here for scarcely more than an hour, on his way from Pittsburgh to New Haven, Governor Cox conferred with party leaders on the effects of his speech in Pittsburgh Thursday, at which he presented information bearing on his charge that Republicans were raising a \$15,000,000 fund to "buy" the presidency. Then, just before his train pulled out, he received newspapermen.

## "DUMMY NAMES"

Asked if he would press his charges further, Mr. Cox replied:

"Yes. You will have new leads in a week, I think."

Referring to an announcement from Will H. Hays, chairman of the Republican national committee, that individual campaign contributions would be restricted to \$1,000, Mr. Cox said:

"Mr. Hays knows that such a statement is not true. The method used by the Republicans are to get some big fellow to give \$20,000 or \$25,000 after which 19 or 21 dummy names are written down contributors on the party's books. No one needs to worry about my not naming the sources of the funds which I have accused the Republicans of raising."

## PUT UP TO PROBERS

Mr. Cox said that if the senate committee investigating campaign funds really wished him to appear before it in Chicago, he would do so.

"The senate committee now has the necessary leads. If it wishes to investigate it will call the Republican state leaders and learn from them who the county and city leaders are and thus get all the details. I have every confidence that the senate committee will go to the bottom of my charges."

## NEW YORK RECEPTION

When Governor Cox was asked about reports concerning Democratic financial affairs of a year ago, he said:

"I came on board the Democratic ship July 7. I know nothing about what happened before that time."

"One thing I can tell you, too, is that I found a deficit but no money."

It was not a wholly political repudiation that awaited Governor Cox here. At the station, too, were James M. Cox, Jr., now a student at a military academy, and Dan Mahoney, son-in-law of Governor Cox.

James, Jr., sprang a sensation of his own when he announced to newspapermen that he was planning to accompany his father on his western campaign trip. Mr. Mahoney, however, broke in on the youngster to announce that his father had not been informed of his plans and that the announcement of James Junior "was considerably in error as he was going back to school September 15."

## MASK IS OFF, SAYS WHITE

Replying to Mr. Hays' statement, George White, chairman of the Democratic national committee said: "The mask is off. The plan is obvious. Governor Cox has rendered a distinct service to the country."

It is up to the senate investigating committee to give the public additional information and figures which Hays and Treasurer Upham of the Republican national committee have. Information thus given before a Republican investigating committee will only serve to emphasize the fact which Governor Cox has already called to public notice.

Sinn Fein Sympathizers Accused of Reprisal

BELFAST. — (By United Press) — The entire business section of Dundalk has been destroyed by fire, alleged to have been set by Sinn Fein sympathizers in reprisal for the burning of Catholic property in Belfast and Lisburn by Unionists.

Thirteen persons sleeping in rooms over a dry goods store were trapped and three of them were burned to death.

Dundalk, a city of 15,000, is on Dundalk Bay, midway between Belfast and Dublin.

## WRIT ASKED FOR WIFE'S BODY

Hospital Alleged to Hold Corpse and Babe For Bill

CHICAGO. — (By United Press) — Joseph Chaper Friday planned to secure a writ of replevin for the body of his wife and the surrender of his son, held by a hospital here in default of payment of a \$75 bill.

Hospital authorities have notified Chaper they will not release his six-weeks old son or permit the burial of his wife until the bill is paid.

When an undertaker called at the hospital for the body, he was told by Dr. T. Beeson that the bill must be paid or a court order secured before the body would be given over, he said.

Chaper protested Friday he had not sufficient funds to pay the hospital bill.

## SLUMP IN PRICES OF COAL SEEN

Big Operators Say Increased Production Is Cause

WASHINGTON. — (By United Press) — A slump in bituminous coal prices now is expected, as a result of increasing production.

Authority for this statement is Vice-President Morrow, of the National Coal Association, who is representing big operators. Director Cushing, of the American Wholesale Coal Association and other officials.

There will be a surplus of more than 40,000,000 tons by December 1 if the present production rate continues, according to a survey of the coal situation just completed by a well-known coal magazine editor.

Production now is ranging more than 11,700,000 tons per week, according to the United States geological survey.

"A production of 11,500,000 tons per week will be sufficient," said Director Cushing Friday, "to pile up a big reserve by December 1."

"The panic of consumers to buy coal is cooling down. It was this panic, evidenced by the families' talk of operators, that boosted prices."

Prices already have begun to fall.

"Bituminous coal of a grade used by utilities and household consumers in the east, which now is selling for \$11 and \$12 per ton by December will drop to \$8 or \$7."

Cox "Dreams in Millions," Says Republican Chairman

## "INSULT TO GOOD CITIZENS"

Will Have Chance to Prove Allegations, He Asserts

NEW YORK. — (By Associated Press) — Will H. Hays, chairman of the Republican national committee, replying to the speech of Governor Cox in Pittsburgh Thursday night, in which the Democratic presidential nominee sought to prove that Republicans were conspiring to buy the presidency, declared that Mr. Cox had such "intimate knowledge of the wasting of millions in aircraft production" during the war, that he "dreamed in millions."

After studying Mr. Cox's speech, Mr. Hays issued the following statement at Republican headquarters:

"Of course, Candidate Cox fails to prove, as he has failed to prove, and will fail to prove, his charges. This is simply because the charges are false."

## BULLETIN QUOTATIONS

"He says millions have been put into the Republican national committee by sinister influences to corrupt the electorate. He first is reported to have said a hundred million. Then Secretary Roosevelt said thirty million. Then candidate Cox said fifteen million, while now Candidate Cox says eight million."

"He attempts to prove this by quoting from the official bulletin of the Republican national committee, a pamphlet published every few days."

"I sent broadcast over the agency to party members and to newspapers, all to instill interest among the workers, and from an alleged quote sheet which he claims indicates the amounts to be raised in certain cities which he does not even charge was adopted or any operation had thereunder."

## DREAM IN MILLIONS

"Candidate Cox, himself a millionaire, has had such intimate knowledge of the wasting of millions in aircraft production in the state, and Secretary Roosevelt has had such an intimate knowledge of the billions of the war, that these men dream in millions."

"Who will have an opportunity in Chicago to prove this insult to the thousands of good citizens all over the country which are contained in the Republican party."

"Incidentally they will have a chance next week to indicate the source of their own money, both of their national committee and of the agencies outside of their national committee raising money to aid in Candidate Cox's election."

## LEROY HELD FOR EXTRADITION

U. S. Embassy Negotiates With Argentine For Alleged Slayer

BUENOS AIRES. — (By United Press) — The American embassy here already has opened negotiations with the Argentine government regarding extradition of Morris Fox, believed to be Eugene Leroy, who is a prisoner on the British steamer Dryden, bound for this port.

Fox was arrested aboard the Dryden, on which he had shipped from New York as a common sailor, on the belief of American officials that he is the Eugene Leroy sought in connection with the murder of a woman believed to be his wife.

The woman's death furnished the trunk murder mystery which involved New York and Detroit several weeks ago.

Owing to the fact the United States has no extradition treaty with Brazil, Fox was not taken ashore when the steamer docked in Rio Janeiro, and it was announced he will be brought to this city. The complicated nature of the case has made the outcome obscure and American officials here were unable to forecast whether Fox will be handed over to the Argentine authorities, awaiting outcome of the extradition proceedings, or will be detained by American diplomatic officials themselves.

## Newly Enfranchised Women Fleece By 'Collector'

PITTSBURGH, Pa. — Numerous newly enfranchised Allegheny women have been defrauded by a bogus tax collector, who went into action shortly after Secretary Coghby signed the proclamation declaring woman suffrage law, according to an announcement made Friday by H. H. Rowand, district attorney.

The fake collector, Mr. Rowand said, operated in the McKeesport district Thursday, and authorities in all sections of the country were on the lookout for him Friday. The bogus agent, victims reported, appeared at their homes, informed them that they must pay him a poll tax if they wanted to vote in November, collected the money, handed out a receipt, and then disappeared.

## 40 MILLION LIVES LOST IN WAR

## 9,819,000 DIE IN ACTION

Drop in Birth Rate Estimated at 20,200,000

WASHINGTON. — (By Associated Press) — Due to war influences, ten European nations engaged in the world war show a potential loss in population of 35,320,000 persons since 1914, according to a statistical research conducted by the Society for Studying the Social Consequences of the War, of Copenhagen, made public today by the American Red Cross.

At the end of 1913, the society reports, these nations had a population of 400,850,000 and under normal conditions this population should have increased by the middle of 1918, to 424,210,000. However, it had fallen by that time to 389,020,000, which led to the conclusion by Danish statistical experts that the loss of actual and potential human life in these nations approximates forty millions.

Causes of the abnormal falling off in population were attributed to the society's report as follows:

Killed in War, 9,819,000; deaths due to augmentation of mortality economic blockades, war epidemics, 3,391,000; fall of birth rate due to the war, 1,100,000; military conscription between 20 and 45 years of age, 20,200,000.

## PLOT TO MURDER LAID BARE

Boy Bandits Admit Plan to Raid White Sox Office

CHICAGO. — (By Associated Press) — Confession of a plot to shoot Charles A. Comiskey, baseball manager, and the office force and police guard at the White Sox baseball park box office September 1, was made to police Friday by three boy bandits who were arrested Thursday in an attempted robbery of a \$10,000 payroll of Wilson and Company, stock yard packers.

According to the police, the three said they had intended to steal the gate receipts of the White Sox Yankee game September 1, when they figured "Babe" Ruth would draw a record-breaking attendance.

They said they also planned to "shoot the witnesses," knowing that Comiskey was not permitted by his physicians to watch the games and that he was in the box office every afternoon.

They told the police Thursday they planned to kill the bank messengers and escape with the \$10,000 payroll.

James Ryan, one of the trio, was identified at the state attorney's office as a member of the gang that shot and killed Detective Sergeant Paul McGuirk recently, while the detective was detaining a Chicago criminal's plan against a robber's raid.

## TRAINMEN KILLED

Result of Penna. R. R. Wreck Near Alliance

CANTON. — (By Associated Press) — Two trainmen were killed and three others were seriously injured and are in a city hospital here as the result of a rear-end railroad collision which occurred late Thursday night in the west yards of the Pennsylvania line near Alliance.

The dead men are W. W. Lehman, 35, conductor, Allegheny Pass and R. L. Cartwright, 27, Penn. R. R., flagman. Both of the bodies were brought to Canton.

Conductor Lehman and Flagman Cartwright were said to have been standing on the rear end of the train which was standing on the main track in the yards waiting orders when it was run into by the engine of the other train which was bound for Canton.

## LONDON TOLD TO FORCE PEACE

Government Ordered to Compel Full Acceptance of Terms

## RED ARMIES CUT IN HALF

40,000 Russians Killed and 80,000 Captured

LONDON. — (By United Press) — British labor is demanding that the government take immediate steps to bring about peace between Russia and Poland.

The laborites take the attitude that Great Britain, having been chiefly instrumental in forcing the Bolsheviks to modify their armistice terms, should now exert all possible pressure upon the Poles to compel acceptance of the proposals which were previously approved by Premier Lloyd George.

In a message sent jointly to Lloyd George, Arthur Balfour, Lord president of the council, and Lord Kamsheff, Bolshevik trade commissioner in London, the executive council of the British labor party, declared that body had helped to induce the acts to withdraw the checkable terms thus removing the obstructions to peace—and urged that the British and Russians should simultaneously publish the full terms upon which peace can be obtained at once.

## RUSSIAN LOSSES HEAVY

PARIS. — (By Associated Press) — The foreign ministry announced Friday that France had compelled Poland to obtain the best strategic military position possible until peace is signed, regardless of her ethnographical frontier, because the military situation will influence the peace terms. France, has advised Poland, however, to withdraw her army within the Polish frontier on the signing of peace, the foreign office added.

Eighty thousand Russian Soviet soldiers have been captured in Poland, 40,000 killed and 80,000 captured in East Prussia, according to the latest report received from the French mission in Poland.

## RED CHIEF OUSTED

WARSAW. — (By Associated Press) — General Tuchareshewski, known as the "Soviet Napoleon," has been relieved of his post as commander-in-chief of the Bolshevik army on the Polish front because of his failure to take Warsaw, according to information given to the press here.

Leon Trolz, a Bolshevik minister of war and marine has personally taken command of the army, it is reported by the Polish office which have been taken prisoners.

General Tuchareshewski had had a remarkable career in the Russian army. He is of noble birth and at the outbreak of the world war was captured by the Germans. Later he escaped and resumed his place in the army, rising to the rank of lieutenant. When the Soviet government was established, he was promoted, and rose to high command, being credited with the defeat of Admiral Kolchak in Siberia, and General Denikin in southern Russia. He is only 28 years old.

## FIGHT FOR FORTS

LONDON. — (By Associated Press) — The Poles and Russians are fighting for the forts of Brest-Litovsk, the strongly fortified town on the Bug river 120 miles east of Warsaw, says the Russian Soviet of field statement of Thursday.

They have been fighting here for several days, but the fighting is continuing with fluctuating results, the statement adds. The commandment reads:

"We are conducting a fierce fight for possession of the forts of Brest-Litovsk. The Lublin region, where fighting continues with alternating successes."

"On the Crimean sector in the Kheron region, we have again driven back the enemy. In the Orlov region exceedingly fierce fighting is proceeding with considerable forces of enemy cavalry."

## BIGAMY CHARGED

Salesman Held When Alleged Wife No. 3 Appears

COLUMBUS. — (By United Press) — Harry A. Ross, 36, Johnston, Pa., old salesman, was arrested at the Chillicothe Hotel early Friday on an alleged bigamy charge.

The complaint was made by Mrs. Harry A. Ross, Lincoln, Neb., who says she is Mrs. Ross number 3, and that her first two wives were divorced.

The wife Ross had with him when arrested was formerly Miss Elizabeth A. Ross, 23, of Johnston, whom Ross is alleged to have married August 19, last. Police say they were honeymooning by automobile and were planning to leave Columbus for western points when arrested.

## "NO ACCIDENT" WEEK PLAN

COLUMBUS. — Anxious to minimize the number of accidents, Hocking Valley railroad officials have named September 12-18 as "No Accident Week."

Unsafe practices, according to E. C. Cott, safety agent, are responsible for the majority of accidents. The first six months of 1920 show an increase of nearly 300 per cent in the number of accidents in railroad service.

## WOMAN VOTE IN ELECTIONS

Is Viewed as 50-50 for Both the Old Parties.

### ANGLES IN OHIO CAMPAIGN

Buckeye State Reports Encouraging to Democrats.

News and Times-Democrat Bureau, Washington, D. C.

Twenty-seven million women are now eligible to vote in the Presidential and Congressional elections on November 2 as a result of the ratification of the Federal suffrage amendment to the constitution by Tennessee last Wednesday. This means a gain of about eight million in the total eligible to vote for President and gain of approximately 20,000,000 voters for members of Congress.

The legislature of North Carolina has postponed action until January and may never act on the question now. This puts North Carolina in the class with Connecticut, Vermont and Florida, the only states which have not acted on suffrage one way or the other. States which rejected the resolution of ratification are Alabama, Georgia, Mississippi, South Carolina, Virginia, Maryland, Delaware and Louisiana.

### BOTH CLAIM CREDIT

Each of the dominant political parties is claiming the lion's share of credit for final ratification. The Republicans by reason of the preponderance of Republican states which ratified, and the Democrats because of the enormous effort put forth by Democratic leaders, particularly the Democratic nominee for President, Governor James M. Cox, in obtaining the thirty-sixth suffrage state. Both sides are claiming the advantage from the additional vote, but impartial observers agree that the women will be counting very equal suffrage eventually was brought about.

If the ratification of the amendment stands, as is confidently expected everywhere, there will remain the question of how it is to go into effect in several states. So far as the states generally are concerned, the Attorney-General of the United States already has issued an opinion that no enabling act is necessary to make the amendment operative, as it is similar, except as to subject matter, with the fifteenth amendment, and last amendment has been added to the constitution and to render imperative authority provisions of the state constitutions and statutes.

Virginia, Mississippi, Minnesota, Massachusetts and New Hampshire have passed enabling legislation which will include the operation of the amendment. The majority of the other states require no legislation. The Attorney-General of Maryland, New Mexico, North Carolina, Ohio, and West Virginia have rendered special opinions that no legislation is necessary. The Governor of Ohio has announced that he will call a special session of the legislature to enact legislation to make certain Missouri women take full part in the elections this year. It is found necessary, while the Attorney-General of Georgia has announced that there will be an opportunity for women to register in October for the November elections.

### DOUBT EXISTS

There remains some doubt as to the necessity for legislation in Alabama, Connecticut, Delaware, New Jersey, South Carolina, and Vermont, and it is believed that special sessions of the legislatures of those states may have to be called before election day to provide for the registration of newly-made women voters. There is no existing machinery nor funds appropriated to take care of this matter. Effects of suffragists now will be devoted to bringing about these special sessions and to fight for further ratifications in order to protect the amendment from the attacks of its enemies in the courts.

The political effect of ratification is hard to determine. In many states, there is no doubt but that it will do nothing more than to swell the total vote without any important change in the ratio of Republican and Democratic strength. This is true particularly of the southern Democratic states where the negro question is the sole deciding factor with the majority of voters. Thousands and thousands of women already have enrolled under the respective banners of the two great parties. Surveys of the women of the country past twenty-one years old, however, leave an enormous number who have indicated no political preference. The states like Ohio, Indiana, New York and others, this gives the politicians something to think about.

Of the states where women did not vote in the last Presidential election but where suffrage has been granted since then, but prior to last week, there has been an average total vote representing 1.2 million votes against states which four years ago against states with an average of 90 electoral vote which went Democratic.

Had the suffrage amendment failed, or if it is ultimately held for some cause until after the election, it will prevent women voting in the following states generally classed as doubtful: Connecticut, Delaware, Maryland, Massachusetts, New York, New Jersey, New Mexico, West Virginia, and Ohio. The Presidential suffrage might be granted in Ohio as a result of the referendum on the subject there. Women will be barred from Congressional and

## NEWS REPORTER HAS FORTUNE TOLD

(By MAUDE MULLEN)

She was wandering all over the Allen-co fair grounds, carrying on her gypsy child of a couple of years. She was a part of the aggregation on the mid-way at the fair.

"I want to tell your fortune. I tell it right," she said to all she came in contact with on the grounds Thursday.

I decided to take a chance, and was ushered into the little tent, where I found a gypsy man and three other women. I was somewhat frightened at first, never knowing as to what these gypsies may say, but after they had reassured me there was no danger, I was more comfortable.

She took me and in her gypsy way I am willing to declare her fortune. She had not seen water since the flood of Bible times. I almost pulled back my hand at the thought of her dirty gown.

She proceeded: "I see a man in your life," said the leader. He's a dark man and I see the name of John. Do you know any one named John, dear?"

"Let's see, John? I know no John," I replied. "But wait. There

was a John. Could it be he? Yes, I cried eagerly. O, tell me, what was John? And is he very dark, you say?"

The lady seemed well pleased at the progress she had made. "He is," she said firmly. "He's very dark. Am I right, dear?"

I acknowledged it. From the triumph she was right about John. He is dark. The Lima Daily News never had a blacker porter and he cleans up my desk every day. "Somebody will propose to you before the year is out. You must accept. It means wealth and happiness. Follow my advice—I know more than you. He will be dark and tall and very dark."

(If she knew how I hate dark men especially the kind that are tall, she would have taken an opposite view in the matter.)

She passed her hand wearily over her closed eyes. "I see you in an office. Many people are about you. You'll be a housewife and a little children. But you don't need to worry. You'll never have any of your own, when once you are married."

(She evidently overlooked my two

small nephews at home who are as much their auntie's as they ever were their mother's and the fact that housework is the biggest part of my still.)

"Have you had a raise in salary lately, dear? No. But you will have soon. I say you will."

(After all, I thought, there may be something in this. Funny, tho, if I should, now. Very funny! Highly improbable, of course, but still.)

Numerous other bits of information were given. A dear friend was to die before the year closed. A case of serious lung trouble in the family; I would have much money thru my own efforts and so on, she rambled along for some minutes.

Not a bad "fortune" without somewhat sketchy in parts, slightly wrong in detail, a little late for the prophecy of a proposal. In fact, this ignorant gypsy had arranged for me a more pleasing prophesy in fact than one would expect from their closest associates.

But, our close associates and relations are wished upon us. Thank heaven we can choose our fortune tellers.

## GENERAL DROP IN PRICES SEEN

Decline Due Within Few Weeks Reserve Board Reports

WASHINGTON.—(By Associated Press.)—Retail prices in the opinion of the Federal Reserve Board, will decline slightly during the coming fall and winter months, and will level off next spring to still lower prices.

Summarizing recent changes in prices of various commodities, the board in a report Friday night said that "having afforded by manufacturers their lowered cost of materials and increased efficiency of labor must eventually be reflected in a downward movement of retail prices."

Also a general slight slump in retail prices during the next few months was forecast, the board was of the opinion that in some lines higher prices were probable, "due to the fact that purchases for the autumn and winter trade had already been contracted for at the old level of prices."

Changes in prices of raw materials, which were reported to have been sharp during the past few weeks, will not show their effect, according to the board, in retail prices until early next spring.

The board said that an "important cause of the recent decline in food, has been evidenced throughout the country, the reduction in prices of raw products having been especially marked. This general lowering of the price level, it was believed, indicates a probable drop in food prices during coming months."

## TOLEDO MAN HELD IN CHICAGO

Identified As One of Trio Who Shot Ohio Paymasters

CHICAGO.—(By Associated Press.)—Charles O'Malley, aged 26, of Toledo, Ohio, who was captured Wednesday in an attempt to hold up a loan pawn shop and steal \$100,000, has been identified with her. He is one of three men who figured in a Cleveland holdup in which two paymasters were shot. O'Malley served 23 months in the Ohio penitentiary for pocket-picking.

Police are looking for J. Joyce and William Davis, and to be escaped convicts, who O'Malley claims were his companions in the attempted holdup here. Police records show Joyce escaped from the Toledo jail December 27, 1919, after shooting a turnkey and liberating three other prisoners. Joyce also is said to have escaped from Sing Sing prison during a jail break.

BLIND NEWSMAN SELLS PAPERS JUST THE SAME AS THO HE COULD SEE

CANTON, Ohio, John F. Schoenauer has sold newspapers on the public square here for three years, yet there are hundreds of persons who pass him every day and do not know he is blind. He handles fifteen different newspapers and magazines, and yet he has never been known to give a customer the wrong paper or to make a mistake in change. "I can make change as rapidly as any newsie," is his boast. He does it all thru system. A little system is a great thing he asserts, especially when it is aided by a good memory. Each shelf of his newspaper stand holds its certain quota of papers and it never varies.

The blind paper vendor has developed such a keen sense of touch that he can tell the denomination of a coin the moment it touches his palm. Schoenauer has at least 150 regular customers whom he knows by their names.

## U. S. SEED CROPS THIS YEAR LESS THAN 1919

WASHINGTON.—The production of practically all small vegetable seed crops will be considerably less this year than in 1919 or 1918, according to reports received by the Bureau of Markets, United States Department of Agriculture. The reduction ranges from 88 per cent for spinach to 12 per cent for lettuce. Increases are shown for garden peas, beans, garden peas and onion sets. A slightly larger production than last year of the early crop of alfalfa seed in the Southwest is indicated, but smaller acreage and lighter yield per acre a production of slightly seed of approximately 50 per cent of last year is the forecast.

There will be an open meeting of the Protected Home Circle on Friday evening at Morris Arcade.

## Westminster Depot Is in Class All Its Own

WESTMINSTER.—Strategically this Allen-co depot is not much of a place in the eyes of the railroad world. Nevertheless passengers going thru here on the Erie railroad marvel at the uniqueness of its railroad station. The station probably cost the railroad company less than any other one along the system when it comes to attractiveness. Westminster station is in a class by itself.

When it was decided to maintain a station here, the railroad officials dragged up two abandoned box cars, coupled them together, cut in a door and a window or two. "There," they said to the station agent, "is your headquarters, go to work." Going to work men that the agent was to sell tickets, make the telegraph, wire receiving train orders, handle freight and express and act as Handy Andy generally. All this happened some time ago. The war came along, and men having a knowledge of telegraphy were in high demand at big salaries in cities and towns more desirable as a place of residence than Westminster.

Over in Illinois, near Chicago, worked Miss Ida Prater, a railroad telegraph operator. She had the "small town bug." Nothing, she thought, would please her more than to be a railroad's sole representative in a small town. She seized the opportunity to come to Westminster when the man agent resigned. Two years ago, she was horror-stricken by the unsightly and untidy station in which she was expected to spend the greater part of the day. Woman-like, she got busy with a broom, scrub brush and paint. The result was nothing less than startling.

In the meantime she has induced obnoxious friends to help her build a portico in front of the door, flower boxes beneath the windows, and a neat gravel walk to the train platform.

During this year the flowers have bloomed, and passenger and train crews are so pleased with the sight of the station that they are glad to see Miss Prater is daily the recipient of many cheery smiles and farewell hand waves.

Miss Prater is 27 years of age, and has been a telegraph operator since leaving high school at Kenton, Ohio, 12 years ago. She says she is extremely contented with her job and now that the station is more like home she is perfectly willing to stay here until the railroad company sees fit to give her a better position elsewhere.

## HENRY DEISEL, SR. DECIDES TO ERECT HOME ON S. COLE-ST

Henry Deisel, Sr. will erect a smaller residence, to be occupied by his family, on the lots on S. Cole street, just south of his present residence.

Deisel has just concluded a deal whereby he becomes in possession of lots 117, 118, 147 and 148 in Lakewood addition to Lima, which he purchased from Andrew DeCurtin. Mr. DeCurtin closed a deal for the lots several weeks ago.

Mr. Deisel disposed of his residence property late last winter to Mrs. A. T. MacDonnell. He held to the opinion that the residence, as built some years ago is now too large for use by his family.

The property purchased of DeCurtin extends back to Franklin-T and is between the present Deisel home and the A. T. MacDonnell residence. It is a patch of tomatoes and other garden vegetables, as well as weeds, which have thrived during the recent rains.

## PHILADELPHIA U. S. MINT TURNS OUT 501 MILLION COINS PAST FISCAL YEAR

PHILADELPHIA.—The Philadelphia mint turned out 501,000,000 coins in the last fiscal year. Raymond T. Baker, director of the United States Mint, gave out the figures after inspecting the institution. New die-cutting machines, electric furnaces and carrying devices have been installed within the last year and efficiency methods have been adopted which greatly increase the output of the mint.

The increase last year was about 25 per cent over 1919. In 1919 a little over a million coins were produced.

Mr. Baker recently returned from San Francisco mint where he is preparing to install improved machinery similar to that in the Philadelphia mint.

With the recent additions, said Mr. Baker, the Philadelphia mint is now not only the largest mint in this country, but manufactures a larger number of coins than any other mint in the world.

TOPEKA, Kan.—Gypsum, in central part of state is flooded and many residents are marooned as result of ten inch rainfall.

## STOCK PARADE IS FINE FEATURE

Rain Fails to Mar Success of Last Day of Fair

### RACE PROGRAM COMPLETED

Record Attendance Thursday—1920 Meet is Success

A gentle rain which began falling early Friday interfered little with the closing day of the Allen-co fair. Early in the morning people began to arrive in carriages and automobiles and in the rain, they stood about the race track to see the parade of livestock, one of the features of the closing day of the fair.

There were colts in the parade which are valued at \$1,000, although but a few years old. Horses which carried off the blue ribbons not only at this year's Allen-co fair, but at other gatherings of a like nature, were proudly around the track. Short-horns, Jerseys and numerous other breeds of cattle, all in their finest coats and groomed especially for the parade, helped to maintain the high standard Allen-co has won this year with her fair of cattle. All wore their ribbons in the parade to show where they stood in the mind of the judges.

They were taken home early Friday afternoon. The races were the big attraction for Friday. The track was dusty and each day had to be wet down. The slight rain of the morning on Friday had little effect on the track and the management announced the race card would be carried thru as planned.

People carrying umbrellas, looked over the exhibits at the fair Friday. Farmers and their families came, brought their children and stayed all day. It will be late Friday night before the driving park grounds resume the even tenor of their way or assumes the quiet which normally characterizes that part of the city.

Officials of the fair and members of the board of agriculture held a meeting Friday morning. A few more than pleased with the success of the fair and the outcome in every department. They announced plans would be put under way to make the next Allen-co fair even bigger and better than the 1920 meet.

A record for attendance was set Thursday, more people being on the grounds that day than known to attend the fair for the entire week in years past.

## DOCKMEN QUIT TO AID IRELAND

2000 in New York Out As Protest in MacSwiney Case

NEW YORK.—(By United Press.)—Twelve hundred longshoremen employed on the piers of the White Star Line here went on strike Friday afternoon, as a protest against imprisonment of Terence MacSwiney in an English prison and the refusal of the government to permit Archbishop Mannix of Australia to visit Ireland.

They were joined by about 800 longshoremen from the Cuard line, another British concern, and 120 firemen from the White Star liner Baltic.

The walkout occurred shortly after lunch, women bearing placards denouncing MacSwiney and Mannix, marched down to the White Star piers. These women circulated among the men, who soon formed a company and marched along the water front, shouting and waving placards furnished them by the women.

## MRS. SARAH MUMAUGH DIES AT HOSPITAL

Mrs. Sarah Mumaugh, 65, died at the City hospital, Thursday night, after an illness of three months from general break-down, due to age. She was born in Ferry-up in June, 1835.

Mrs. Mumaugh was the daughter of Daniel and Hannah Shuler. Her first husband was Stephen Mumaugh, who was killed in the rebellion. She is survived by a son, U. W. Jacobs, a grand-daughter, Mrs. H. L. Bobb and a great grand-daughter, Florence Luttrell, all of Lima. A brother, William Shuler, resides in Troy.

The body was removed to the Williams and Davis mortuary. Funeral services, Saturday at 4:30 o'clock at the grave in Lafayette cemetery.

## "HOOCH" FED TO HOGS. CAUSES OWNER TROUBLE

COUNCIL BLUFFS, Ia.—Henry Vanderpool is in jail here, all on account of "home brew" and a drove of hogs.

He made the mistake of feeding mash from two "moonshine" stills to the animals, which indulged in a "high lonesome" and attracted the attention of neighbors to their antics.

He was producing the "moonshine," Vanderpool told Federal officers, to pay off a mortgage on his farm.

# TO GAS CONSUMERS

LIMA, OHIO, AUG. 27, 1920.

DEAR MR. AND MRS. GAS CONSUMER:—

Do you know the facts regarding the gas situation in Lima and the proposition made by the Gas Company to the gas consumers in Lima?

In the first place, The Lima Natural Gas Company is only a distributor of gas, receiving their supply of gas from The Medina Gas & Fuel Company's field located some 130 miles east of Lima; there is absolutely no interest connection between these two companies; that is, The Lima Natural Gas Company does not own any stock and is not interested in any way in the Medina Company; neither is the Medina Company interested in any manner in The Lima Natural Gas Company, the stockholders in these two companies being absolutely different people. The Lima Company purchases gas from the Medina Company just the same as a local coal dealer buys his coal supply from some mining company.

Up until about four years ago the gas fields owned by the Medina Company were able to produce a great quantity of natural gas; in fact, in the year 1916 The Lima Natural Gas Company received and sold from this field one billion six hundred million cubic feet of gas; since that time, however, the field has become exhausted to the extent that in 1919 we sold only a little more than three hundred million cubic feet of gas; our records show that for 72 days during the months of January, February and March of 1920 we were able to maintain a pressure of from only one-half to one ounce and consequently the gas service was very poor in Lima. However, the Lima Company could do no better for the reason that the Medina Company was unable to furnish a better pressure because of the depleted condition of the gas field.

During the month of April this year, the Medina Company, realizing how expensive it was to drill new wells and lay lines to secure gas for Lima, started in by serving notice on the Lima Company that they would not furnish any more natural gas to Lima; the Lima Company at once served notice on the Medina Company that if they tried to get out of furnishing gas to Lima, we would bring suit against them immediately. The Medina Company then took the matter up with the Public Utilities Commission, claiming that the line east of Lima was in a leaky condition and they would not furnish gas through this line in its present condition.

After several months negotiation, with the help of the Utilities Commission, it was agreed that sixty thousand dollars should be spent to put this line in perfect condition, provided the Lima Company was able to procure new ordinances in the city of Lima and other towns which the Lima Company controls.

Up to the present time the Medina Company has been furnishing gas to the Lima Company on a percentage basis; that is, the gas comes direct from the field to Lima and is distributed to the individual consumers here and the readings of the consumers' meters are taken as a basis of settlement, the Medina Company receiving 65% of the revenue from gas sales and the Lima Company receiving 35%. Under this plan, the Medina Company stands a loss of from 12 to 15%, the normal leakage in the distributing system. The Medina Company absolutely refuses to continue furnishing gas under this plan. Under the new arrangement with the Medina Company whereby sixty thousand dollars is to be expended on this line, the Lima Company will have to enter into a new contract with the Medina Company under which they will purchase all the gas through a meter located at the corporation line, paying 40c per thousand cubic feet for all gas passing through this meter, which really means to the Lima Company a rate of 50c per thousand cubic feet, taking into consideration the normal leakage and expense of passing through a manufactured process at our Gas Works and into our large holder, ready for distribution to the consumers.

Before this new contract could be accepted from the Medina Company, the proposition of new rates had to be presented to your Honorable Council; this was done some six weeks ago. The contract as drawn up between the Medina and Lima Companies was put into the hands of the Clerk or Council and read by him to the Council. All data pertaining to the operation of the Lima Gas Company for the past year was put into the hands of each Councilman in open meeting and a request made to the City Council that the Lima Company be allowed to establish a price for manufactured gas, composed of 30% natural gas and 70% artificial gas, which would make a return to the Company of 10% net. Owing to the high cost of materials which enter into the manufacture of artificial gas and the high price of natural gas under this new arrangement, it would be necessary for the Lima Company to establish a MAXIMUM price of \$1.65 per thousand cubic feet, with a 50c Readiness-to-Serve Charge, in order to protect the Lima Company in the event anything

should happen to the natural gas supply which would make it necessary at any time within the next two years (the term of this new contract) to furnish absolutely all artificial gas.

The following is a list of the material and amount of same which enters into the manufacture of one thousand cubic feet of artificial gas:

Coke—50 lbs. @ \$19.10 per Ton	.48
Oil—4 gallon @ 16c per Gallon	.64
Boiler Coal—30 lbs. @ \$10.00 per Ton	.15
Labor	.06
Plant Upkeep	.10

Cost in Holder	\$1.43
Overhead for Distribution	.54

Total Cost at Meter	\$1.97
---------------------	--------

Now you will understand that if we are able to start in and furnish a manufactured gas (70% straight artificial and 30% natural gas) the above cost of straight artificial gas will be reduced in accordance with the percentage of natural gas which we will be able to procure, and which amount can not be determined at this time.

At the time this proposition was put up to the Council, we suggested that the Council appoint a Committee composed of City officials or any one else they might designate, to whom we would agree to turn over our bookkeeping end of the business that they might audit our books every thirty days to ascertain what the earnings of the Company were and we would make a sworn statement every thirty days of the exact earnings of the Company; and that this Council would have the authority to name the price at which we should start to sell gas and any time that such price earned more than 10% it was to be reduced to such a figure as to provide not more than 10% earnings. The idea was that the people of Lima might know more about the affairs of the Gas Company and their earnings.

It appears this arrangement was quite satisfactory, aside from the Readiness-to-Serve Charge, the Councilmen claiming that they had a great many protests against the Readiness-to-Serve Charge, and while the Gas Company feels and has proven beyond a doubt that the Readiness-to-Serve Charge is the most equitable charge where 50% of its business is unprofitable, nevertheless we feel that we wish to please the consumers in so far as we possibly can. Therefore, we have said to the Council, "make your own price so long as you will guarantee the Gas Company a net earning of 10%."

We have also made the proposition to the Council that we will absolutely guarantee two ounces of gas, which is amply sufficient to take care of cooking, hot water tanks and small room heaters, and if continuously for a period of one week we fail to carry a two ounce pressure, we will rebate each consumer 50% of his bill for that particular period of gas shortage.

The men who operate the Lima Gas Company are just as human as the consumer who wishes to burn the gas; we run our business honestly, fair and square, and we have offered repeatedly to open our books to any one who is interested in the matter.

We can not get along without gas consumers and gas consumers can not very well get along without gas. Is there not some amicable way of adjusting this matter? We believe there is,—don't you?

In this article we have tried to lay all the facts before you, and if there is anything further or any better plan which you can suggest, we would be glad to hear about it. We ask you to co-operate with us, for you must certainly realize as we do, that the fuel situation in Lima is a very serious one. 85% of the people of Lima are not equipped to burn any other fuel except gas and we might as well be perfectly frank with you and tell you now that unless some satisfactory arrangement is made very shortly, you had better make the necessary preparation to take care of your requirements for other fuel for the coming year.

In conclusion, we wish you to not be misled by some of the headlines which appear in the press to the effect that the price the Gas Company requests is \$2.15 for the first thousand cubic feet. This is not the case. The Gas Company recommends that a MAXIMUM price of \$2.15 be established, merely to take care of any critical situation which may arise within the next two years, but they are perfectly willing to start off and continue, if the quantity of natural gas warrants, with any price less than this which the Council may designate and which will provide a net return of 10% on the capital invested.

## AUGLAIZE-CO FAIR NEXT WEEK

Special Attractions of Interest to  
Allen-Co People

The Big Auglaize-co Fair will be held at Wapakoneta on Tuesday, Wednesday, Thursday and Friday, August 31, and September 1, 2 and 3. Every person in Lima and vicinity who enjoys a really big fair, the biggest and best county fair in the state of Ohio, by all means should attend the fair at Wapakoneta.

Wednesday, September 1, will be the Big Day. On that day the ladies of Auglaize-co will serve a free chicken dinner at the fair grounds for all the ex-service men of the county. This is only one of the big attractions of the day.

The United States is sending one of its military bands of 30 pieces, with a car load of war trophies, as a special attraction for that day. A platoon of United States army, from Camp Knox, Ky., with

high school horses, mounted by ex- port troopers, will put on fancy drills.

The famous Meteor Band of 42 pieces, from Piqua, which journeyed across the continent to the national Democratic convention at San Francisco, has been engaged for that day. Also, the gorgeous band of the Hussar Band of Chicago, will contribute to the musical part of the program. In addition to these the world renowned Fisher Funmaker Band of Kalamazoo, Mich., will also afford music. There will also be a number of local bands.

On that day one hundred children from the Allen-co Children's Home will be entertained at the Big Fair. They will be transported from Lima to Wapakoneta in automobiles by ladies in charge of automobiles that are to be decorated with American flags. A committee of twenty children, with a large number of ladies, will receive the Lima party and have planned for the entertainment of the children. Dinner will be served for the visitors from the Children's Home and there will be other special features to add to their enjoyment.

The race program is expected to surpass anything of the kind ever before attempted. Everybody in Allen-co is urged to attend the Big Auglaize-co Fair, particularly on Wednesday, September 1. Adv

### OHIO WOMEN VOTERS TO EQUAL MEN IN 1920

COLUMBUS—Officials of the secretary of state's office estimate that the number of women voters in Ohio would be in the neighborhood of 1,700,000 or just about the same as the number of male voters, expected to be eligible to go to the polls this fall.

Four years ago the male vote in Ohio was 1,195,907, but officials have figured that this number has been increased several hundred thousand.

# COX CHALLENGES G. O. P. DENIAL

Offers "Proof" of Slush Fund in Pittsburgh Speech

PHILADELPHIA. — (Enroute with Governor Cox to New Haven.) (By United Press.) — Governor James M. Cox, having made a spectacular presentation at Pittsburgh of the figures which he said support his charge that the Republicans are seeking a campaign fund of \$15,000,000, Friday was awaiting the response of his opponents in his "intention" before determining how his attack shall be continued.

While travelling to New Haven, Conn., for his first stump invasion of New England, Cox indicated that his speech, with copies of all the documents on which it was based, will be placed before the senate campaign expenditures committee, when it resumes its meetings next week at Chicago.

The governor stated that one of his main aims in future addresses will be to show Senator Harding is responsible for the alleged "slush fund."

Cox's trip to Connecticut Friday is generally believed so abundant to rally the Democrats and the women of the state against Senator Brantley, because of his premeditated stand against the League of Nations. He will make two addresses at New Haven.

**HAYS CHALLENGED**

In his speech Thursday night,

Cox read a list of 51 cities in 26 states to which he claimed the Republicans had agreed to contribute \$1,100,000. Then he read paragraphs after paragraphs from the "National Tribune" which he said was a confidential publication published by the office of Paul W. Updine, treasurer of the Republican national committee. These quotations showed that campaigns are being made in cases of states, and that quotes in addition to those of the 51 cities have been assigned. His conclusion was that those quotes, as mentioned in the bulletin, will show the total considerably above \$15,000,000. Cox held up copies of the bulletin before the crowd, but did not reveal how they came to be in his possession. The list covered parts of the list assigned with checks when Cox challenged Harding to deny the existence of the quotes.

**"BOYS GET THE MONEY"**

Senator Harding's speech brought forth the evidence which Cox read when he said was a list of cities in the "National Tribune." It part of the work of the financial organization.

The great application came when Cox read the paragraph, which he said he found in one issue of the Bulletin.

Harding and Cox have the confidence of the country, but they are not the money; the money is enough to hold the weight of the nation, but they are not the money.

## THURSDAY AFTERNOON CLOSING COMES TO END

Lima's business which were caught away from this summer by the Thursday afternoon closing of grocery stores, will not have to worry for another year, as yesterday was the last day for this summer. Practically all of the local stores, in accordance with a custom of the past several years were closed every Thursday afternoon, during June, July and August. This was in order to give merchants and clerks a rest in between the busy days of the week. The stores resumed their regular schedule in September.

### Advance Showing of New Fall Apparel

At this "between season" time, people are interested in knowing about the styles for the coming season. And for such are we making this early showing. We want you to feel free to come in and look over the charming new creations of dresses, suits, coats, wraps, gowns, millinery, furs, etc., which we are now displaying.

### THE SUITS

These Suits embody the salient features of the newest and most approved styles. The slightly lengthened coat and plain or fur collar which buttons snugly about the throat are featured.

### THE COATS

The new fall models in our Women's Coat Section are calculated to arouse admiration, with their soft, rich fabrics, "wrappey" or straight-line styles, deep cape collars.

### THE DRESSES

Advance fall models are beautifully designed of splendid fabric, richly embellished with braid, beading, embroidery, etc. Every one representing a distinctive style for street, afternoon or evening wear.

### THE MILLINERY

Our millinery section has correctly analyzed the new Fall hats according to the latest interpretations of the Parisian modistes, and tomorrow promises to be an unusually interesting day in this popular section.

# HAIR SEALS SEEN OFF CAPE COD

Hides Used for Leather Only; Fat For Oils

**BOSTON**—Advisers received from the Cape Fish and Game Commission show that seals are abundant along Cape Cod. Fishermen are catching seals in great numbers, as high as a thousand have been seen, while herds of two to five seals are numerous.

Fishermen are engaged in capturing the seals, for which the Cape Cod Commission pays a head bounty on account of their destruction. Among the fish, seals, goats and kums are used to kill them in the open waters, while around the rocks where they rest, fishermen use deadfalls and scaling hook and line.

Seals taken in Massachusetts have no value for military or naval use, as they are not the true seal varieties, but which are known as the seals. They belong to the same named species, *Phoca vitulina*, found in the North Atlantic and the Massachusetts specimen does not differ from the one taken in the North Atlantic.

Seals taken in Massachusetts are not worth the coming of a winter weather, as they are not the true seal varieties, but which are known as the seals. They belong to the same named species, *Phoca vitulina*, found in the North Atlantic and the Massachusetts specimen does not differ from the one taken in the North Atlantic.

## MADE MILLIONS IN OIL; DIES POOR

Prospector, Solomon, Buried in Pauper's Field

CASPER, Wyo.—Simon (Old Sol) Soloman, eighty, whose spectacular career and extensive operations in coal fields of Pennsylvania half a century ago brought him into national prominence, is dead here a pauper.

Soloman died in a local hospital of a brief illness, and was buried in a pauper's field.

There was no music, no flowers, no mourners—just a few kindly words and a prayer—as the casket of the aged man, who was reputed to have won millions in the oil game, was lowered to its resting place.

Simon Soloman, in the early 70's, was a figure almost as prominent as a friend and associate, "Coal Oil Johnny," and his passing recalls some of his successes at Titusville and Oil City, Pa., and of the great "strike" of his career in the proving of the famous Bradford field in McKean County, Pa. Soloman was said to have been the pioneer prospector in the Bradford field, where his holdings were worth many millions of dollars.

From Bradford he went to Richburg and Belvoir, where fortune continued to pour its golden stream into his coffers. "Old Sol" was credited with having developed the famous "No. 365" oil well, in the Warren, Pa., field.

"It was after he brought in the Warren gusher that Soloman became

a national figure," a Casper oil operator related. "He was only a little behind 'Coal Oil Johnny' in notoriety. His trips to financial centers would immediately place him in the midst of moneyed men who sought his counsel. Many oil fortunes of to-day received their start at the hands of Soloman. But the years brought reverses, and penniless and aged, 'Old Sol' came to Wyoming in an effort to rehabilitate his lost fortune. He was optimistic throughout his fruitless struggle here to win back some of the fortune he had lost, and steadfastly refused to accept offers of assistance from men who had known him in his prosperous days. 'I'll strike it before long,' he would say, but death ended the painful search."

Finely Made of the Wanted  
Fall Materials with Two Pair  
Trousers

\$14.95

—Some mothers find it a problem locating clothes for boys that will give good service to that young American who is "rough" on his suit! To those parents (and there are a number) we suggest a suit with—

TWO PAIR PANTS

—That will positively insure twice the wear. The makers have been careful in making these clothes suit every requirement. They are tailored of fine all wool materials and reinforced at places where the hard knocks are expected—in all we believe this value will be in reach of every mother's pocketbook—at \$14.95.

## DIVIDED ON GAS RATE QUESTION

Tarvin to Make Minority Recommendation to Council

The franchise committee of the city council is apparently hopelessly divided on the gas franchise question.

Councilman A. W. Tarvin declares Friday he will make a minority recommendation of the committee that the Lima Natural Gas company be held to their old contract. He declared the new franchise asked by the gas company, in which they agree to furnish a mixture for any price named by council, not to be less than \$1.35 per thousand cubic feet, is too unreasonable. He said he bases this opinion on the rate for a mixed gas in Cincinnati, where he says the price

is 40 cents per thousand with a rebate of five cents per thousand. City Solicitor Garling stated Friday he has a letter from the City Solicitor of Cincinnati, containing Tarvin's statement of prices. It is understood Councilmen Berry and Reed, other members of the franchise committee, are in favor of granting the gas company a new franchise. Their recommendation had not been reached by the council Friday, however. Councilman Reed is out of the city and not expected to return before the early part of next week.

## Canton Plant Lays Off 1000 Night Workers

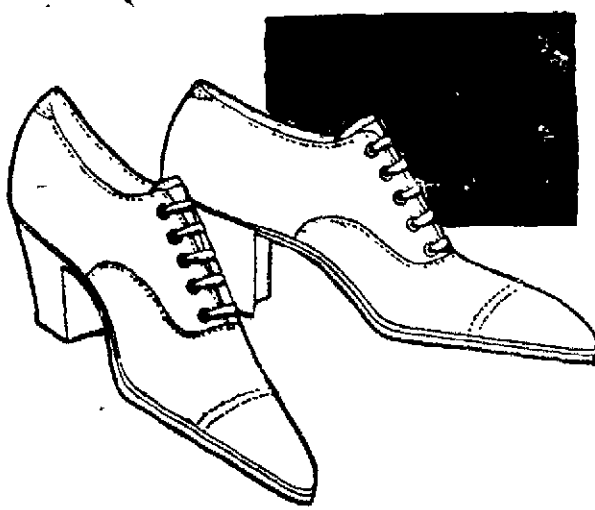

Lima is unusually free from a number of contagious diseases which are prevalent at this season of the year, according to the monthly report made by Health Commissioner Dr. J. B. Poling to the board of health Thursday night. Only five homes are now under quarantine, and the number of cases of contagious diseases does not claim more than three or four patients each. A total of 327 inspections were made during the month by health board and sanitary inspectors. Twenty-nine deaths and fifty-four

births have occurred since July 28th, according to Dr. Poling's report. A petition signed by all master plumbers in Lima asking for a reduction from \$50 to \$10 of their license fee was laid before the board. The plumbers contend that it is not practical that plumbers working in a small business should have to pay the same fee that large shops do. Action was also taken to secure immediate shipment of 9,000 pounds of cement needed for the completion of the Collet-st sewer, as the work has been held up several months, and the torn up streets are a menace to public health. A resolution to the above effect was adopted and will be forwarded to the state board of health, asking their cooperation. The cement has been held up owing to a labor strike in the warehouses of the Superior Cement Co., Jackson.

## FAREWELL AT BRYAN FOR NEW LIMA PASTOR

The Rev. E. Bryan, Ohio, contains an account of the farewell reception given by members of the Ministerial Association of that city at the M. E. parsonage for Rev. Samuel Huecker, who comes to Lima as pastor of the Market Street Presbyterian church. Rev. Huecker will begin his new duties September 1. Rev. Huecker has highly respected by members of his congregation in Bryan and the people of the community at large, and many expressions of regret were heard when it became known that he had received a call to fill a vacancy at Lima, occasioned by the resignation of Rev. Thomas Knox.

## ADVERTISING IS MONEY SAVER

### Public Profits From Judicious Presentation of Facts

Advertising is more than a service to the business men who employ it. It is a public service, and helps the customers as well as the merchant, when properly used.

This is the view entertained by members of the Lima Advertising Club and by the Associated Advertising Clubs of the World, with which the local organization is affiliated. In announcing that C. H. Morath, from the headquarters office of the

advertising clubs in New York, with his in Lima all of the week of August 20th, the Associated Advertising Clubs have especially stressed the desirability of making people appreciate the importance of advertising to them.

In addition to delivering addresses to members of the advertising club and other business men, who will attend a dinner meeting at the Norval Hotel on Monday evening, August 28th, it has been announced that Mr. Morath will address other local organizations, which come to the fore line. Officers of such organizations already met in touch with Paul H. Stokes, 200 Black Block.

"The people of your city must realize that advertising is a service to the public," says a message from the Associated Advertising Clubs, which headquarters are in New York City. "Some people think of advertising as

a service only to the business man, but that is the wrong conception. It helps the public. It tells people what they can find what they want at prices most advantageous to them. It is new.

"Advertising saves the public money, for, properly used, it more than pays for itself. It saves more than its cost because it is the cheap way to sell goods. Thus, in advertising, the business man speaks to thousands of people for the price of talking to a handful of people through a personal representative. His advertising speaks out to the people interested in the kind of goods he is selling, and then talks to them."

"Many of our advertising clubs have done a great deal toward making local people understand that advertising is simply news about the things they need to buy. It is a service to them, and it saves them time and money."

**TOO MUCH JAZZ**  
NEW YORK. The public has had too much jazz and is turning toward more natural music, said Paul H. Klap, president of the Music Industries Chamber of Commerce, in an address before the National Association of Masters of Dancing, Thursday night. He also urged a rigid censorship of words in music and said suggestive lyrics should be session today.

## Tells How She Obtained Relief

she had dizzy spells, spots floated before eyes, was quite nervous, had pains in her limbs and slept poorly.

## KIDNEY TROUBLE GONE

Gives all praise to the new remedy, Dreo, which is causing so much favorable talk in and around Lima.

"I was certainly one sick and ailing person when I began taking Dreo, but now I have a different tale to tell," is how Mrs. Jay Morrison, 775 S. Union St., Lima, O., expresses her feelings.

"I had a very sluggish liver, which gave me bad dizzy spells and spots danced before my eyes, and I could hardly thread a needle when these spells struck me. I became very nervous and my sleep was not refreshing to me, and I would wake up with that tired yawning feeling. My tongue was coated and I had a bad taste in my mouth most all of the time."

"My kidneys caused a lot of trouble and those terrible, aching pains in my back almost drove me mad. My joints were sore and it hurt to bend them, and my muscles often became sore to the touch. Now I tell you I was in a pretty bad way, and had found no medicine that helped me. I kept reading from day to day about the new root and herb medicine, Dreo, so I determined to try it, and I am proud to say that I am feeling like a different person altogether. All my ailments have passed off, and I am feeling young and spry. Never have any pain over my kidneys any in my joints. Liver is acting fine and I haven't had a dizzy spell since the first week I started on Dreo. I tell you it is great medicine, and you can sure put this in the papers, for I don't care who knows that it did me good."

Dreo is made from the juices of twelve different herbs, roots, barks and berries, which act directly upon the stomach, liver, kidneys, bladder and the blood and tends to relieve constipation, headaches, rheumatism, catarrh, biliousness, dizzy spells, heart fluttering, gas on the stomach and other troubles. Dreo is sold by all good druggists throughout the country, and is highly recommended in Lima by Bohl's Central Drug Store, Corner Main and High Streets.

—Adv.

## FAMINE FOLLOWS RED FLIGHT

Starvation Faces Panic Stricken  
Bolsheviks, Says Report

LEE INTO EAST PRUSSIA

Soup Kitchens Established for  
Them by Germans

BERLIN. — (By United Press.) —  
Famine and desolation are follow-  
ing in the wake of the panic-strick-  
ed flight of the Bolshevik troops  
who are crossing the frontier into  
East Prussia by thousands.  
Many of the soldiers are accom-  
panied by their wives and their  
children, who they said they were

forced to bring with them on the in-  
vasion of Poland or they would have  
starved to death while the men  
were fighting at the front.  
Indescribable scenes are being enact-  
ed along the border, according to  
dispatches received from press cor-  
respondents. German officials es-  
tablished soup kitchens to care for  
the starving, emaciated Russians.  
Men, women and children, scream-  
ing and fighting, scrambled over  
each other in the rush for these ra-  
tions "like pigs fighting at a food  
trough," one correspondent said.

**PAY HEAVY TOLL**  
Some of the refugees not realizing  
they could enter East Prussia, with-  
out paying toll, offered hundreds of  
their bags and their personal trinkets to  
the frontier guards for their passage  
across the boundary.

Hundreds of the reds declare  
they never want to return to Russia,  
saying it is impossible to make a  
living in that country. The wildest  
rumors are in circulation among the  
prisoners. Word is passed from  
mouth to mouth that a revolution  
has broken out in Moscow and that

Lenine and Trotsky have been slain.

### PLAN RISING

The German government is no-  
tifying the entente regarding  
the feeding and ultimate disposal of  
the interned Russians. Tentative  
plans have been made to take them  
to Pillau and Swinemunde, to then  
distribute them from there among  
the more habitable former Russian  
prison camps.

Thus far the reds are tractable,  
and but few guards have been  
needed, but the reichwehr ministry  
has announced that in the event of  
an uprising, there will not be suf-  
ficient military to hold them. Some  
groups of Russians still retain their  
arms and it is reported they are or-  
ganizing into larger bands in order  
to storm stores in East Prussia, un-  
less they are supplied with plenty of  
food.

**UNDER DOUBLE CHARGE.**  
John G. Kennett, 40, 1030 Hazel-  
ave., is registered at police head-  
quarters on a charge of drunkenness  
and reckless automobile driving. He  
will be given a hearing Monday.

## THE ROOM WITH THE TASSELS

By Carolyn Wells

Elijah Stebbins came while breakfast was in progress, and at Milly's invitation took a seat at the board.

"Well," he said heavily, "you folks wanted spooks, I hope you're satisfied."

"Don't use that tone, Mr. Stebbins," Landon reproved him. "A dreadful thing has happened. I cannot think it is by supernatural causes nor can I see any other explanation. But that is no reason for you to speak flippantly of our investigations of your so-called haunted house."

"No offence meant," said Stebbins, "but I'm thinkin' you folks had better go away from here or there's no tellin' what might happen."

"Do you know anything about the mystery?" Professor Hardwick shot out the question so suddenly that Stebbins jumped.

"No, sir, of course I don't, sir. How could I?"

"Then why do you warn us off the premises?"

"I don't exactly do that, but I'd think you'd reason for yourself that what happens once can happen again."

The dogged look on the man's face seemed portentous of evil, and Milly began to cry.

"Oh, take me home, Wynne," she begged. "I don't want to stay here!"

"Come with me," said Landon, and rising, she led Milly from the room.

It was shortly after that the coroner arrived.

"I don't want to see that man," said Stebbins, "him and me ain't good friends," and rising quickly, the owner of the house fled toward the kitchen quarters, and soon the rest of the morning with the Thorpes out there.

Doctor Crawford, the county physician and coroner, was a man of slow speech and dignified manner. He was appalled by the circumstances in which he found himself, and a little frightened at the hints he had heard of ghostly visitations.

Indeed, that had been the real reason for his delay in arriving—he had not been willing to brave the darkness of the night before. This was his secret, however, and his excuse of conflicting duties had been accepted.

The whole party gathered in the hall to hear what the newcomer had to say.

Eve and Milly returned, the latter, quivering and tearful, going straight to her husband's side, and sitting close to him.

Norma was pale and trembling, too, Tracy's watchful eye regarded her sympathetically, as he led her to a seat.

Eve, self-reliant and calm, flitted about incessantly. She went to the kitchen and talked over household matters with Milly, for Milly was unable to do this. Then, returning, Eve went into the drawing room, and after a few minutes returned, closing the door again after her.

She stopped into the room with the tassels. She was there longer, but at last came out, and locking the door behind her, retained the key.

So one noticed this but Norma, said she kept her own counsel, but she also kept a watchful eye on Eve.

Even before he went to look at the bodies of the two victims of the tragedy, Doctor Crawford asked some questions.

His slowness was maddening to the alert minds of his listeners, but he methodically arrived at the facts of the case.

"I am told by my colleague, Doctor Wayburn," he said, "that there is no mark or sign on the remains to indicate the cause of death. There will, of course, be need of autopsies, but for that I will await Doctor Wayburn's return. He will be here shortly. Meantime, I will inquire concerning this strange information I have received, hinting at a belief in—ahem—in spiritualism, by some of the people here present. Is such belief held, may I ask?"

"Perhaps belief is too strong a word," the Professor volunteered, as no one else spoke, "but I may tell you that we came here to this house for the purpose of investigating the truth of the story that the house is haunted."

"And have you made such investigations?"

"We have tried to do so. The results have been mysterious, startling and now,—tragic,—but cannot say we have proved anything, except that supernatural influences have most assuredly been at work."

"I am not willing to accept such an explanation of two sudden deaths," Crawford said, in his dignified way, "at any rate, not without a most exhaustive investigation into the possibility of their having been brought about by natural agencies. Let me take up first the case of Mr. Bruce. Was this gentleman in robust health?"

"Entirely so," said Landon, "so far as we know. It is not conceivable that he had some heart trouble or other malady that was not noticeable, but of that I cannot say positively. It seems to me, Doctor, you would better look at him, you might note some symptom that would enlighten you."

Crawford shuddered perceptibly, but tried to hide his disinclination. Though accustomed to gruesome sights, his dread of the supernatural was such that he feared the proposed examination. However, ashamed of his hesitation, he rose, and asked to be shown the body of Clifford Bruce.

Landon started to officiate, but Milly's detaining hand held him back; the Professor made no move, but Eve and Tracy started simultaneously to rise.

"I'll go," said Eve, a little officiously, and Tracy sat down again. She led the way to the big drawing room, where the remains of Clifford Bruce lay, and stood by while Doctor Crawford looked down at the still, white face.

A long time they stood there, no word being spoken. Then Eve said softly, "Don't let your disbelief in supernatural powers blind you to their possible reality. There are many matters yet unknown, and spiritualism is one of them. Remember that we who are here gathered are sensitive and psychics. We are prepared for and expect experiences not vouchsafed to less clairvoyant natures,—though we did not look for this! But I beg of you, sir, to realize that there are things of which you have no cognizance, that yet are real and effective."

Doctor Crawford looked at the speaker. In the partially darkened room, Eve's strange eyes glittered with an uncanny light. Her face was pale, and her red hair like a flame aureole. She took a slow step nearer to the doctor, and he recoiled, as from a vampire.

"You are afraid!" she said, and her tone was exultant. "Do not be afraid,—phantasms will not hurt you if you do your duty. Unless you do your duty—"

she stretched her hand toward him, and again he drew away, "the phantasms will haunt you—haunt you—haunt you!"

Her voice fell to the merest whisper, but it thrilled thru the room like a clarion note to the shocked ears of the listening man.

Against his will her eyes held his; against his will, without his volition, he whispered, "What is my duty?"

"To declare,—to declare in accordance with your own conviction, in proof of your own belief,—that these two deaths were the direct result of a supernatural power. What power, you know not, but you do know—remember, you do know, that no mortal hand brought the tragedy about, either the hands of the victims themselves or of any one else."

Fascinated, frightened, Crawford stared at this strange woman. He had never before encountered such a face, such a sinuous, serpentine form, a personality that seemed to sway his very being, that seemed to dominate and control his whole will power, his whole brain power.

## NEW COMEDY IS REFRESHING

"Scratch My Back" is Latest Vehicle of Mirth

HELENE CHADWICK IS STAR

T. Roy Barnes on the Fun Making End of the Story

(By ESTHER WAGNER)

IF you ever have that terrible sensation of having an itchy spot on your back, and no matter from what angle you tried to scratch it, your hand just missed it by a half-inch? Remember begging someone to please scratch that spot and when they finally located it, your agony changed to bliss and you thanked your deliverer effusively?

Evidently Rupert Hughes has had that same experience, for in his novel "Scratch My Back" he has taken an every-day occurrence and woven round it a comedy that is unusual, to say the least. It's at the Regent.

Val Romney (played by T. Roy Barnes) had never forgotten his own experience, when on a yachting trip he would have given most any-

thing he possessed for a chance to scratch his back when it was itchy, but was kept in absolute misery by some talkative women who wouldn't let him leave. He never forgot his relief when an old sailor scratched his back for him, so when he noticed a beautiful lady in front of him at the theatre suddenly twitch at her shoulder-blade, he understood. And when the lights were extinguished he reached right over and scratched it for her. You see, he was willing to break all the rules of etiquette to help her out.

And a romance blossoms forth from this little incident. The lady turned out to be Madeline Loton, who, before her marriage had been on the stage with a man named Jahoda, whom she left in a short time. However, Jahoda had discovered her and furthermore, had in his possession some pictures of Madeline taken in dancing costume. Friend husband, you know, was ignorant of wife's past. Now you can go right ahead and finish it up yourself. The new friend of the theatre episode gets the pictures, husband finds his wife with another man, and it takes about four acts to explain everything to his satisfaction.

I have never liked Helene Chadwick as well as in this production. She is decidedly there, with some wonderful gowns and all her old charm. She has splendid support, Mr. Barnes being of the best known comedians in the profession. And

or not, you'll approve entirely of her and her acting.

Pictures as entertaining as "Scratch My Back" are so few and far between that it behooves all of us to go see it.

HERE AND THERE

Marguerite Fisher is starred in a new picture called "The Week End."

Among those who sailed for Europe last week were Norma and Constance Talmadge, Dorothy Gish, Jack Pickford and Olive Thomas.

"Money Mad," a new picture to

star the dancer, Dorothy Dickson.

NOTES  
A new movie pictures pioneer days in Oklahoma. It is called "Laboma."  
Bryant Washburn is shown in "What Happened to Jones."

STRAW VOTE

Sept. 19 to 25 is the week fixed for the political straw vote to be taken at theaters exhibiting movies of the Associated First National Pictures, Inc.

The vote will be on presidential candidates, woman suffrage, prohib-

tion and League of Nations.  
Georgia Hopkins is starred in a five-reel farce called "Bachelor Apartments."

Selznick will present Eugene O'Brien in six pictures, including

"That Wonderful Chance," "Mysterious Moments," "Hard-Luck O'Day," "A Man's Word," "The Fighter."

Be prepared for the fuel shortage, sure to come. Gas will be scarce and high priced no doubt, coal will be high priced and should be conserved for heating purposes. Coal oil is the most convenient and cheapest fuel known today. The Detroit Vapor Oil Stove is the next thing to gas. It has an all cast iron burner requiring no troublesome wicks. The burners will last a lifetime. Call and see this stove in operation.
